

Hospital management project

Hospital management has different sets of users to interact with the Database having different usages. For example, doctors want to view the details of the patient after entering the patient's id, General manager of the hospital wants to view the doctor's details and their shift timings he wants to enter doctor id and shift to see doctor details.

For making this possible, we created 6 different table to store the respective details about everyone.

First, we see domains.

Domains:

A Domain is a reusable object which stores technical information of the field

Domain Name	Description
ZBB_DOM_ADMON	Admitted date
ZBB_DOM_ALTTO	Allotted to patient
ZBB_DOM_BEDID	Bed identification
ZBB_DOM_BLDG	Blood group
ZBB_DOM_CITY	City of the patient
ZBB_DOM_DAY	Day details
ZBB_DOM_DCODE	Department code
ZBB_DOM_DISD	Discharge date
ZBB_DOM_DOB	Date of Birth
ZBB_DOM_DOCID	Doctor ID
ZBB_DOM_DTEXT	Description of department
ZBB_DOM_EMAIL	Email ID of patient
ZBB_DOM_FNAME	Patient first name
ZBB_DOM_FRTIME	Time
ZBB_DOM_GEND	Gender of patient
ZBB_DOM_HOD	Head of the department

ZBB_DOM_LNAME	Patient last name
ZBB_DOM_PATIENTID	Patient ID
ZBB_DOM_PHN	Phone number
ZBB_DOM_RCODE	Region code of patient
ZBB_DOM_RDATE	Registration date
ZBB_DOM_SHIFT	Shift timings
ZBB_DOM_SPEC	Specialization of doctor
ZBB_DOM_WNAME	Ward name

Data Elements:

A Data Element in SAP ABAP Data Dictionary (DDIC) is an object that defines the business meaning of a field.

While a Domain defines the technical properties, a Data Element describes what the field represents to the business.

Data Element	Description	Domain
ZBB_DE_ADMON	Admitted Date	ZBB_DOM_ADMON
ZBB_DE_ALTTO	Allocated Patient ID	ZBB_DOM_ALTTO
ZBB_DE_BEDID	Bed ID	ZBB_DOM_BEDID
ZBB_DE_BLDG	Blood Group of Patient	ZBB_DOM_BLDG
ZBB_DE_CITY	City	ZBB_DOM_CITY
ZBB_DE_DAY	Day of the Date	ZBB_DOM_DAY
ZBB_DE_DEPTC	Department Code	ZBB_DOM_DCODE
ZBB_DE_DISD	Discharge Date	ZBB_DOM_DISD
ZBB_DE_DOB	Date of Birth	ZBB_DOM_DOB
ZBB_DE_DOCID	Doctor ID	ZBB_DOM_DOCID
ZBB_DE_DTEXT	Description	ZBB_DOM_DTEXT
ZBB_DE_EMAIL	Email ID	ZBB_DOM_EMAIL

ZBB_DE_FNAME	First Name	ZBB_DOM_FNAME
ZBB_DE_FRTIME	Time	ZBB_DOM_FRTIME
ZBB_DE_GEND	Gender	ZBB_DOM_GEND
ZBB_DE_LNAME	Last Name of Patient	ZBB_DOM_LNAME
ZBB_DE_PATIENTID	Patient ID	ZBB_DOM_PATIENTID
ZBB_DE_PHN	Phone Number	ZBB_DOM_PHN
ZBB_DE_RCODE	Region Code	ZBB_DOM_RCODE
ZBB_DE_RD	Registration Date	ZBB_DOM_RDATE
ZBB_DE_SHIFT	Shift Timings	ZBB_DOM_SHIFT
ZBB_DE_SPEC	Specialization	ZBB_DOM_SPEC
ZBB_DE_WNAME	Ward Name	ZBB_DOM_WNAME

Tables:

In SAP ABAP, a Table is a database object used to store data in rows and columns.

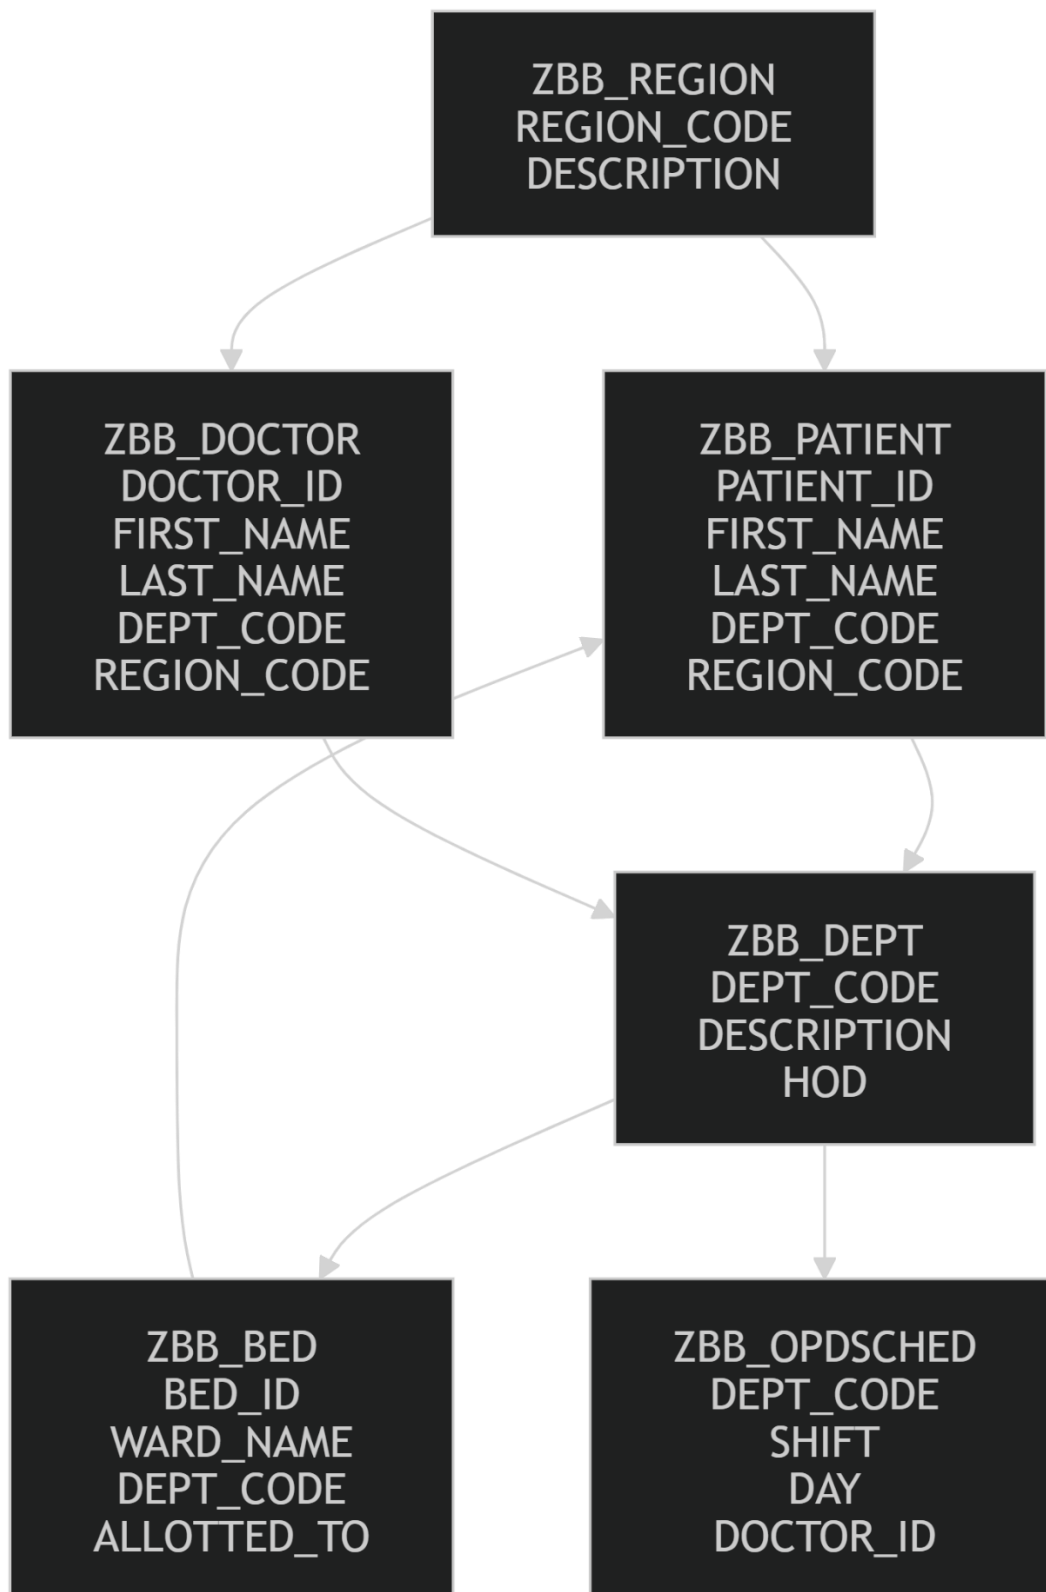

A table is created using fields, and those fields are usually defined using Data Elements, which in turn use Domains.

Table	Description
ZBB_BED	Bed allocation details
ZBB_DEPT	Department details
ZBB_DOCTOR	Doctor details
ZBB_OPDSCHED	Op scheduled details
ZBB_PATIENT	Patient details
ZBB_REGION	Address details

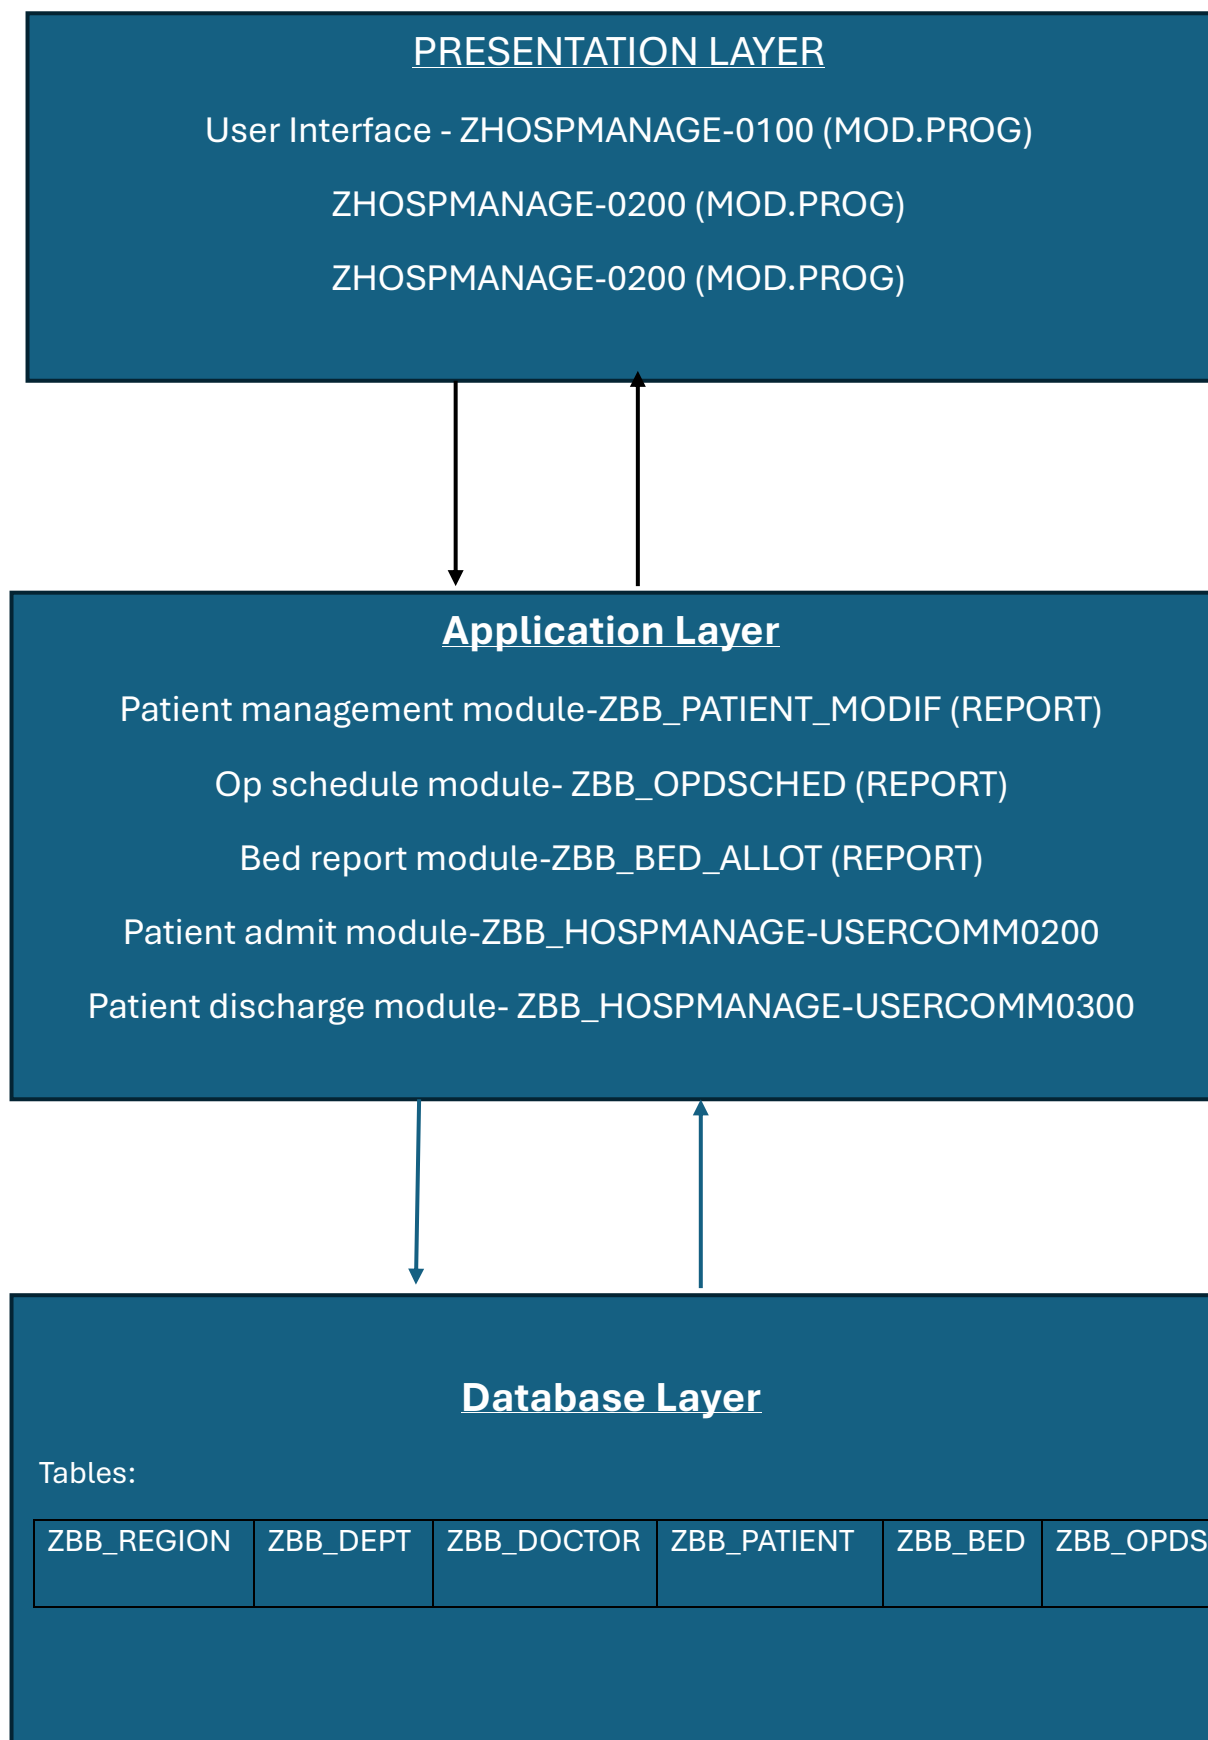

Relationship between the tables:

In database tables, a relationship defines how records in one table are connected to records in another table through Primary Keys (PK) and Foreign Keys (FK).

THE RELATION BETWEEN THE TABLE AS FOLLOW:

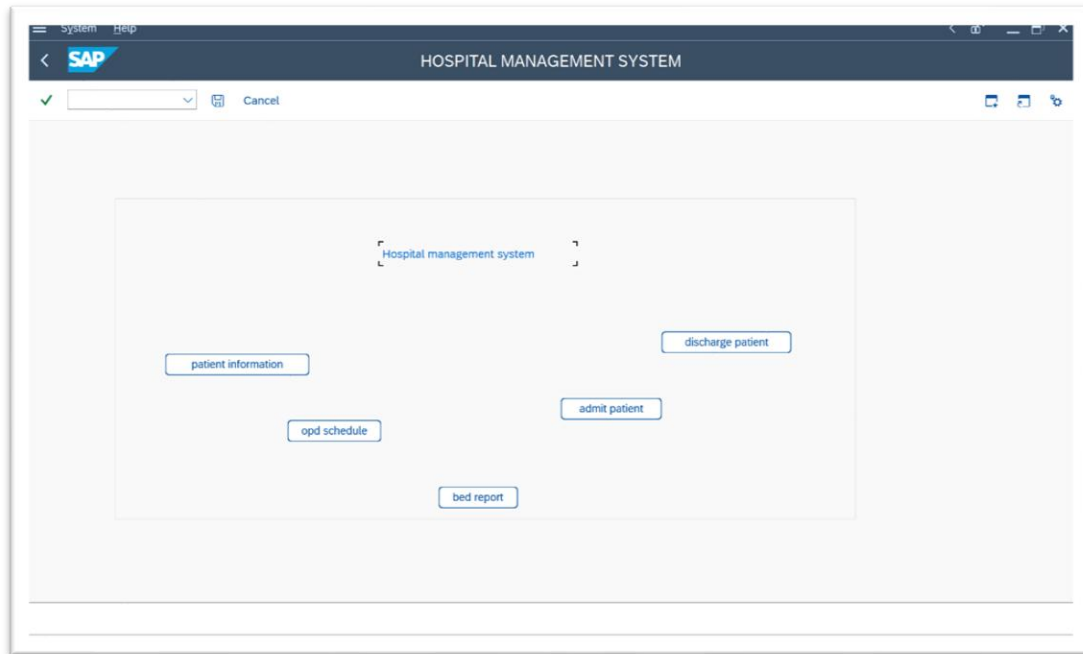

Architecture of the project:

SAMPLE OUTPUTS

HOME SCREEN:

PATIENT MANAGEMENT MODULE:

The screenshot displays the 'Patient Management Module' interface. The top menu bar includes 'Program', 'Edit', 'Goto', 'System', and 'Help'. The title bar shows 'Report number 01'. Below the menu bar, there is a search bar with a green checkmark icon and a 'Cancel' button. The main content area is divided into two sections: 'CHOOSE EITHER ONE OF THE BELOW' and 'ENTER THE DETAILS BELOW'. The 'CHOOSE EITHER ONE OF THE BELOW' section has two radio buttons: 'Display' (selected) and 'Modification'. The 'ENTER THE DETAILS BELOW' section contains three input fields: 'Patient id', 'Department', and 'Year'. There is also a 'to' label and a search icon. The bottom of the screen has a status bar.

OPD SCHEDULED MANAGEMENT MODULE:

The screenshot displays the 'OPD SCHEDULED MANAGEMENT MODULE' interface. The top menu bar includes 'Program', 'Edit', 'Goto', 'System', and 'Help'. The title bar shows 'Report number 2'. Below the menu bar, there is a search bar with a dropdown arrow and a 'Cancel' button. The main area contains a form with fields for 'P_DEPT' and 'P_SHIFT'. A 'Department code (1) 5 E...' dialog box is open, showing a list of department codes: CARD, DERM, NUER, ORTH, and PEDI. The dialog also includes a 'Restrictions' section with various icons and a status bar indicating '5 Entries found'. The Windows taskbar at the bottom shows the search bar, task icons, and system tray with the date '04-07-2026' and time '00:49'.

BED MANAGEMENT MODULE:

The screenshot displays the 'BED MANAGEMENT MODULE' interface, specifically the 'ADMIT SCREEN OF PATIENTS'. The top menu bar includes 'System' and 'Help'. The title bar shows 'ADMIT SCREEN OF PATIENTS'. Below the menu bar, there is a search bar with a dropdown arrow and a 'Cancel' button. The main area contains a form titled 'BED ALLOCATION DETAILS' with the following fields: 'Bed id' (8001), 'Ward Name' (WARDA), 'Department code' (CARD), 'alt patient id' (1), 'admitted date' (03.07.2026), and 'Discharge date' (10.07.2026). At the bottom of the form, there are buttons for 'SAVE', 'BACK', 'Exit', and 'Cancel'. The Windows taskbar at the bottom shows the search bar, task icons, and system tray with the date '04-07-2026' and time '00:51'.

DISCHARGE MANAGEMENT MODULE:

The screenshot shows the 'DISCHARGE SCREEN' in SAP. The window title bar includes 'System' and 'Help' menus. The SAP logo is visible on the left. The main content area is titled 'Discharge management Screen'. It contains a form with the following fields: 'Bed id' (with a selection icon), 'Ward Name' (a long text field), 'Department code' (a short text field), 'allocated pat id' (a text field), 'admitted date' (a date field), and 'Discharge date' (a date field). Below the form are two buttons: 'Discharge' and 'Back'. At the bottom of the window, there is a taskbar with various application icons and a system tray showing 'ENG IN' and the date '04-07-2026'.

PATIENT ADMIT MODULE:

The screenshot shows the 'Report number 01' in SAP. The window title bar includes 'Program', 'Edit', 'Goto', 'System', and 'Help' menus. The SAP logo is visible on the left. The main content area is titled 'Report number 01'. It contains a form with the following fields: 'First Name' (RAVI TEJA), 'Last Name' (ACHANTA), 'Date of Birth' (20.08.2005), 'Registration date' (05.07.2026), 'Department code' (NEUR), 'Blood Group' (O-), 'Gender' (M), 'Phone' (9000000010), 'Email id' (ACHANTARAVI@GMAIL.COM), 'City Name' (CHENNAI), and 'Region' (R7). Below the form, there is a message box that says 'Patient Registered Successfully. New Patient ID : 000000008'. At the bottom of the window, there is a taskbar with various application icons and a system tray showing 'ENG IN' and the date '05-07-2026'.
